

Familiarity Review Template

Name: Theodore Hancock

Date: 12/8

Week: 13

Coding Topic: APC

Description of Understanding: A way to manage different views. Basically makes the application modular and maintainable since you don't need as many different views.

File	Git Link	What should I be looking for?	Sandbox or Your code?
Controller.java Main.java Operation.java Math.java //Also included but not used Add.java Subtract.java Multiply.java	https://github.com/blakejth/CIT360/tree/master/Assignments/APC	Java files	I got a lot of help from my group on this one so there is a good amount of sandbox here but I did my best to make it my own.
