# Familiarity Review Template

**Name:** Theodore Hancock
**Date:** 10/20
**Week:** 6

**- Updated to include 8 system tests -**

**Coding Topic:** SystemLevelTests
**Description of Understanding:** System testing is a way to ensure that the program/code is working properly. From my understanding, there are two major ways to test, the first is black box testing and white box testing.  The PPTX is from my turn to present to the class. I will have a video available when I have presented to the class.

| File | Git Link | What should I be looking for? | Sandbox or Your code? |
|------|----------|-------------------------------|------------------------|
| System Level Tests.pptx testResults.pdf | https://github.com/blakejth/CIT360/tree/master/Assignments/SystemLevelTests | The PPT has the learning and the .png has the results of the testing. | I reused code from an older program to demostrate white box testing |
